QUICK GUIDE

Konftel BT30

PHYSICAL CHARACTERISTICS]

BUTTON

LED

FIRST TIME PAIRING: Activate pairing mode on the Konftel Bluetooth® speakerphone. Connect the BT30 to the USB port. BT30 will automatically pair with the speakerphone.

FOLLOWING PAIRING: Activate pairing mode on the Konftel Bluetooth® speakerphone. Press the button on the BT30 for 3 seconds until LED starts flashing blue. Pairing will be automatic.
USE CASES DESCRIPTION]

The Bluetooth® adapter enables wireless connection for wideband audio in two typical scenarios:

ⓘ Once paired, select "Konftel BT30" as your audio device.

Connect a computer (PC or Mac) running your communication software of choice, to a Konftel Bluetooth® speakerphone.

Connect to the Konftel OCC Hub and a Konftel Bluetooth® speakerphone, for video meetings with wireless HD audio.
